

DRIVER CPC – ESSENTIAL FOR LARGE GOODS VEHICLE DRIVERS

Big Wheelers (South Wales) Limited is an established commercial vehicle driver training school which first started trading in 1999. With continued expansion and success are proud to be the leading provider for the provision of Driver CPC in Cardiff, the Capital of Wales, and surrounding area.

The Organisation is a Preferred Supplier to the Career Transition Partnership (CTP) and operates a Quality Management System which has gained ISO 9001:2008 certification, specific to Commercial Vehicle Driver Training Services.

From 10th September 2009 both new and existing professional LGV drivers must complete 35 hours of Periodic Training within the 5 years following their initial Driver CPC, or acquired rights, to keep their Driver CPC valid. All Driver CPC Periodic Training is designed to be delivered in minimum training blocks of 7 hour periods.

It is anticipated many drivers will leave it too late to sign up for their Driver CPC periodic training; the consequence being after 10th September 2014 they will lose their entitlement to drive professionally leading to greater job opportunities for new drivers to enter into the transport industry.

To provide the best possible training for our customers, Big Wheelers (South Wales) Limited have teamed up with Mercedes-Benz UK Limited and are a Driver CPC Driver Training Associate. We are in a very fortunate position to offer a large selection of top quality Driver CPC Periodic Training modules covering both classroom and in-cab training which have been designed and produced by the biggest truck manufacture in the world.

Please note if you passed your car test after 1st January 1997, and LGV test after 9th September 2009 you will also need to complete initial Driver CPC Module 2 and Module 4.

Should you require any further information please call our office 0845 3707 731 (Local Rate) and we will be happy to help.
